ABBREVIATION REFERENCE: AIR = American Indian Reservation; Trust Land = Off-Reservation Trust Land; OTSA = Oklahoma Tribal Statistical Area; TDSA = Tribal Designated Statistical Area; SDAISA = State Designated American Indian Statistical Area; CDP = Census Designated Place

The diagram illustrates various symbols used on maps to represent physical features. It is organized into two columns. The left column shows symbols for linear features: 'All Roads' (a simple line), 'Railroad' (a line with cross-ticks), 'Pipe/Power Line' (a line with small squares), and 'Physical Feature' (a line with small circles). Below these is a 'Nonvisible Boundary' represented by a dashed line. The right column shows symbols for area features: 'Stream/Shoreline' (a blue line with wavy patterns), 'Intermittent Stream' (a blue line with a dashed center), 'River / Lake' (a blue area with wavy patterns), and 'Glacier' (a blue area with a wavy pattern and a central line).

<sup>1</sup> This map shows tribal census tract boundaries and numbers. A tribal census tract is a type of census tract defined within a federally recognized American Indian reservation or off-reservation trust land for the purpose of providing data based on an American Indian hierarchy rather than by state and county.
